ENGINEER'S AND BUILDER'S SUPPLIES.

BLACKSMITHING.

ELEVATOR
CAR GATESExpert Testimony That
They Have Been
Long in Use.

Albert L. Lewis, attorney at law, Philadelphia, has made a return as commissioner of testimony he took in the damage suit, on account of the death of a child, of Antonio Camillo against Alexander Young Building Co., Ltd.

Milton R. Schlichter, age 59 years, residing at Norristown, Pa., testifies to the following effect: He is superintendent of the Stokes and Parrish Elevator Co. of Philadelphia, having held the office about 31 years. For the past twelve years that company has represented the Otis Elevator Co. of New York City, in the matter of the installation of passenger elevators in the city of Philadelphia, and deponent has been during that time superintendent for the Philadelphia office of the Otis company. He has had no experience with other elevator companies, and his experience with these had extended over 31 years.

"The state of the art," Mr. Schlichter says, "permits of the construction of car doors or gates for the purpose of operation, with reasonable facility, in passenger elevators. Where the cars are crowded and the passengers are in a hurry, car doors may impede a little the rapidity with which the elevators may be operated. This is due to the time which must be allowed in opening and closing the car doors. My answer has reference to elevators where there is only one shaft door and one car door."

The state of the art has permitted of the construction of car doors or gates, referred to in the previous answer, for the past ten years. Both the companies already mentioned and the Morse-Williams Elevator Co. have, for the period mentioned, installed passenger elevators with car doors. The Stokes & Parrish had installed, previous to January 31, 1905, for the Otis company elevators with single car doors in the City Hall, Philadelphia. For the past 15 years both the Stokes & Parrish and the Otis companies had sold and installed passenger elevator cars having more than one doorway equipped with car doors or gates in all doorways.

Deponent is cognizant of a number of elevators having cars with gates, but had inspected only a few not installed by his two companies, and he says:

"I have seen such car doors used in the buildings just mentioned—especially when the car was crowded, when persons unaccustomed to ride in elevators and children were in the elevator cars."

Answering several interrogatories, Mr. Schlichter says he had seen elevator car gates in use in New York and Philadelphia, and though comparatively few they had been used ever since ten years ago. His concluding answer is this:

"Most of the car doors or gates, to which I have referred, are folding or collapsible. In City Hall, Philadelphia, four of the elevator cars have a non-folding or non-collapsible gate, while the remaining twelve elevator cars have collapsible gates. In most cases the car doors are operated by hand; they are easy of operation if kept in proper condition."

Homer Smith, Ph. D., Professor of English in Ursinus College, Collegeville, Pennsylvania, gives testimony as follows:

"In the City Hall, City of Philadelphia, Pennsylvania, there are sixteen elevators whose cars have either an inside sliding door or folding doors, termed car doors by these interrogatories; and the elevator shafts have each but one door, termed shaft doors by these interrogatories, as an entrance to the cage or car on each floor. The said inside sliding or folding doors were in use in 1895 and have been used ever since."

"In Grindel Brothers Department Store, 9th and Market Sts., Philadelphia, covering nearly a whole block, there are four elevators whose cars have inside sliding doors, and which have one door each as an entrance on each floor. These sliding doors were put in in 1903 and have been in use since that time."

Dr. Smith names also, as having the safety fixtures in question, the following buildings: Land Title building, Philadelphia, 22 stories high, eight elevators with inside sliding doors in use since the opening of the building in the fall of 1902; Bellevue-Stratford Hotel, Philadelphia, 19 stories high, four elevators with inside sliding doors in use since October, 1904; Waldorf-Astoria Hotel, New York City, and Hotel Essex, Boston, both the last two having elevators since August, 1903, with inner sliding doors in use and, like the others, but one entrance on each floor to each car.

"In some elevators," Dr. Smith says, "it is the custom and the rule of the building to close the sliding inner gates when the elevator is in motion."

Most of the elevators specified by deponent had folding or collapsible car doors.

STANLEY DOLLAR CASES.

Four libels in admiralty altogether have been filed in the United States District Court against the British steamer Stanley Dollar. Japanese who paid their passage money hence to Seattle are the libellants, and \$500 is the amount of damages each one claims. Under the rules of court the return day for admiralty cases is the Friday of the week succeeding that in which a suit is filed. The court has discretion to shorten the time.

PURPORTING HEIRS
PROSECUTE CLAIMS

Annie Keoloha and John Williams, children of the late J. R. Williams, are suing W. R. Castle, trustee of the estate of that decedent, for an accounting of their claimed share under the will.

They show that the late Justice Bickerton, when the Supreme Court had probate jurisdiction, declared that they had become legitimate, and that the trustee had thereafter made payments of their share of income to their mother on their behalf until within a year or two past, since which time he had refused to make any payments to the claimants, or anyone on their behalf, holding that they were not entitled to receive any portion of the income or to share in the principal of the estate of J. R. Williams, deceased. T. M. Harrison is solicitor for the claimants.

Agnes Soares petitions that P. D. Kellett Jr. may be ordered to file his account as trustee of the estate of her late father, Manuel A. Barete, saying she is informed that the income is about six hundred dollars a year, that the trustee is paying money to some of the heirs but that she has not received anything to date. W. C. Achi is her attorney.

OFFICER APANA
SUED FOR \$2000

Lee Lon has brought suit against C. Apana, sometimes called Chang Ping, for \$2000 damages on account of assault and battery with fists, hands and feet, alleged to have been committed upon plaintiff by defendant on March 26, 1905. Plaintiff says he was laid up a month from the assault, incurring a doctor's bill of \$100, besides detention from business. A. S. Humphreys is his attorney.

The defendant is a Chinese policeman on the Honolulu force.

MORTGAGE ON NOTE.

J. J. Newcombe by his attorneys, Thompson & Clemons, has brought a suit against H. R. Macfarlane to foreclose a mortgage on thirty shares of stock of Macfarlane & Co., Ltd., given as security on a promissory note for \$2717.50 at 8 per cent. per annum made July 1, 1902.

BIGAMY CHARGED
AGAINST LIBELLE

Kamakakauwila wants a decree of divorce from Robert K. Reid on the ground of bigamy. She was married to Reid at Honolulu on January 2, 1900, by Rev. C. M. Limburg, a Catholic priest. At that time she did not know of her own knowledge that Reid was already a married man, having been married to a woman named Luika Kahana by Rev. Father Kelekino, a Catholic priest, at Kau, Hawaii, and she says that Reid and Luika are living together as man and wife at Kau. He is now in Honolulu and she prays that he may be cited to answer her libel.

Hatsu Takata has discontinued her divorce suit against Masayuki Sakato, which was filed by her attorney, W. T. Rawlins, exactly a year ago.

A LITERARY BRIEF.

Assistant District Attorney J. J. Dunne has filed a brief for the U. S. Government in nine customs appeals from the Board of General Appraisers, New York City. The tribunal just mentioned decided that South Sea shell necklaces were "manufactures of shells." Mr. Dunne's effort is to convince Judge Dole that they are jewelry. He quotes Carlyle, the Scottish philosopher, in his brief and engages in a learned disquisition on the habits of barbarians. The importers of the goods at issue are local curio dealers.

NEW RAILWAY CORPORATION.

Articles of incorporation of the Koolau Railway Co., with capital of \$50,000, have been filed. The shareholders are Kahuku Plantation Co. with 490 shares and Andrew Adams, J. B. Castle, W. R. Castle, C. M. Cooke, J. P. Cooke, George F. Davies, G. M. Rolph and D. L. Withington with one share each. As its principal object, the company proposes to construct a railway from Kahuku plantation in a south-westerly direction through Koolauloa and Koolaukoko.

Rights are reserved to increase the capital to \$500,000 and to engage in agricultural, manufacturing, fruit preserving, mercantile and shipping wharf enterprise.

OLAA, STRIKE SUBSIDING.

To Bishop & Co., Honolulu, from Olaa: Strike breaking up; majority of men working. Mill running.

MISS LYDIA J. FARRELL.

A Case of Dyspepsia.

Dyspepsia is caused by acute inflammation of the nerves of the stomach.

It is by nervous energy that the muscles of the stomach contract and expand, and the digestive fluids are secreted. The muscular walls of the stomach must be kept in vigorous action until the process of digestion is made complete.

The nerve fibres, like other tissues of the body, may become inflamed and diseased by neglect or other causes; then they must be nourished and their strength restored. It is when the nerve fibres are overstrained by worry of mind, overtaxing or neglect that they become exhausted and weak.

Dyspepsia is but one instance where the vital nerve force is necessary.

Discontent, ill-temper, low spirits, despondency, dizziness, sick headache, heartburn, palpitation of the heart, distension of the stomach, are some of the many forms that dyspepsia takes.

The true cure must be the restoration to strength of the nerves which govern the digestive organs.

MISS FARRELL'S CASE AN EXAMPLE
OF THOUSANDS.

"I have been greatly benefited by the use of Paine's Celery Compound. Until I tried it I was a great sufferer from dyspepsia and constipation. I spent considerable money trying various preparations without success, until I tried the Compound. Before I completed the first bottle I noticed a change for the better, but I continued until I had taken six bottles in all, which effected an entire cure. I feel better to-day than I have at any period of my life. It affords me great pleasure to endorse Paine's Celery Compound." Lydia J. Farrell, 129 DeKalb Avenue, Brooklyn, N. Y., August 12, 1904.

Paine's Celery Compound is curing thousands of dyspeptics every day, in just this way. By feeding and restoring the nerves to their full strength. It never fails to cure.

Sick headache, palpitation, dizziness, and heartburn are usually relieved by a single dose of Paine's Celery Compound.

Remember this.—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, and all reputable Druggists sell and recommend it.
